## Libby Hill

Libby Hill grew up in the suburbs of Baltimore. Soon after college graduation, she met and married her husband, and they moved to Evanston, Illinois, where they have lived ever since. They have two daughters and two grandchildren.

In 1969, Libby received her graduate degree in library science from what was then Rosary College, now Dominican University, in River Forest, Illinois. Wanting to learn more about the natural world led her to a graduate degree in Geography and Environmental Studies from Northeastern Illinois University. She now teaches a course in that department.

Libby and her husband have always enjoyed travel. They love rivers and have sought out the headwaters of the Yukon, Mississippi, Missouri, and Suwanee, among others. She also loves searching for birds in the wild. Her ambition is to see every National Wildlife Refuge in the United States, a goal that's always out of reach because, fortunately, refuges are being created faster than she can visit them.

## ABOUT THE AUTHOR
